## June 2010 E-Newsletter

### Time is Running out to claim against the Education Tax Refund

If you are eligible, you can claim 50% back on a range of primary and secondary school education IT expenses. These include the cost of buying, establishing, repairing and maintaining any laptop and desktop home computers, USB flash drives and home internet connections just to name a few. Visit the [Education Tax Refund](#) website for more information. Please also consult your account for individual eligibility. From 1 July 2010 you can claim against the Education Tax Refund for spending that occurred from 1 July 2009 to 30 June 2010. Computer Wizz can put together a wide range of packages or PC repairs and upgrades to suit students needs and can assist in setting them up to achieve their best performance

**Give us a call. But hurry, there is less than 2 weeks left until the end of the 2009 / 2010 financial year.**

### Microsoft Office 2010 now available

This week saw the release of the new version of Microsoft Office now 2010. There are 3 different versions available. Home Student, Home & Business and Professional. Starting at a little over \$200, there is a version suitable for everyone. Give us a call to discuss your requirements and what version will best suit your needs

### Deepcool Notebook Cooler

© 1996 Randy Glasbergen. E-mail: [randy@glasbergen.com](mailto:randy@glasbergen.com) [www.glasbergen.com](http://www.glasbergen.com)

Leaving your notebook running all day on a desk with little ventilation is potentially harmful to heat sensitive components. For these times, the use of a notebook cooling pad aids in the performance and long term life of your computer. This unit quietly blows cool air onto the underside of your notebook keeping your machine cool and running at its optimum performance. **Priced at just \$39**, you can be sure your PC or Mac will be running smoothly and efficiently all day.

**Phone us for more information or to place an order**

**“You said I should spend more time with our children, so I turned their faces into icons.”**
